

CB3T/ HDU-2 Moteck

2 Post Lift System Reset Instructions

Use this guide to reset your Moteck 2 post Lift system if the lift actuators are not functioning properly.

Use this guide if your system includes the following components:

1. Control Box: CB3T-110-24-2-L-SY

2. Handset: HDU-2

3. Actuator: FD60-XX-XX-XXX.XXX-HS4

Reset Instructions:

1. Make sure the CB3T control box is plugged into a 120V 60Hz AC outlet. Also, make sure all other connections to the control box are correct and plugged in completely (ie. Handset or actuators).
2. Press and hold both buttons on the HDU-2 handset for 3 seconds.

3. Actuators will retract from current position, and return to home position.
4. Reset is now complete and lift system should function properly.
